

Pay@Reception

PMS (Property Management System) Integration making life easier.

Improve your customer experience and maximise the efficiency of your front desk. Integrate Opayo with your Oracle Property Management System and make it easier and faster to process guest payments.

Pay@Reception is an integrated payment solution designed for hotel environments. Work with Oracle Payment Integration to give a wholly unified payment process and for transactions to be transferred simply and securely between the ePOS and terminals.

Save time:

- Manage check-in and check-out transactions quickly and easily.
- Perform check-out duties from anywhere in your hotel, with or without the cardholder.
- Cut back on manual data entry.

Simplify your process:

- Automate end-of-day cash-ups and top-ups.
- Work with the major acquirer of your choice.
- Send prices to devices automatically.

Stay relevant:

- Give your front desk a better look with wireless devices.
- Accept popular cards, payment types, and schemes, like American Express, Union Pay, ApplePay, and AndroidPay.
- Offer dynamic currency conversion to your international customers.
- Remain PCI-compliant.
- Take high-value contactless payments.
- Benefit from integrated card tokenisation.
